for ganja plantation has already been sanctioned till the end of the current year and as the new probationary Inspector will only take his place, it may be presumed that the Excise Commr will be able to find funds, as already directed by reappropriation from sanctioned grants.

(5) The real question for decision is whether there is any necessity for this new appointment. The Excise Comm's idea apparently is to take on hand the cultivation of date trees, and thereafter with a view to ensure the permanent supply of toddy by replacement. This is a good one and

OFFICE OF THE EXCISE COMMISSIONER IN MYSORE,

Bangalore, dated 11th January 1911.

Excise Commissioner in Mysore.

To

Offg: *Secretary to the Government of*
His Highness the Maharaja of Mysore,
General and Revenue Departments.

SIR,

In continuation of my letter No.5553 dated 7/9-1-11 intimating that the cultivation of Ganja at Dodkurgod is nearing completion, I have the honor to state that the services of the Ganja Overseer and his establishment are no longer required for the purpose for which they were intended. But as important - Date plantations are being opened at Goribidnur it would be - necessary to place a Probationery Inspecter with some establishment in immediate charge of them under the general control of the Range Inspector concerned. With a view therefore to utilise the amount sanctioned for the Ganja Establishment, I have appointed one B. Mohansingh as a Probationery Inspector on Rs.35 plus 10 for the charge of these date-plantations and the 4 watchmen given to the Ganja Overseer will be directed to work under him. As by this arrangement a saving of Rs.5/- per month is effected to - Government, necessary sanction therefor may be obtained early

properly and systamatically worked under a separate staff set apart for the purpose. The present staff has far too much to do to be able to attend to this work which must in the first place have proper supervision.

5. With this end in view we have selected some 400 acres for opening up date plantations near Goribidnur. The idea is to have the area ploughed deep with the deep ploughs, plant the seed and - - eventually to wire them round.

6. The ploughing, sowing and wiring may be done on contract under supervision. Attempts will, however, be made to induce the ryots to cultivate the land between the rows, but this cannot always be depended upon. If they decline to do so it will be necessary to keep the soil open by ploughing by Amani.

7. The proposed scheme under the foregoing plan is to last for a period of 3 years during which time we should require the - - following staff: -

One Probationary Inspector on Rs.35/- plus 10 horse-allowance.

Four peons on Rs.7/- each.

The cost of this establishment amounts to 876 rupees per annum. Thus the expenditure under this head would come to Rs.2628/- for 3 years in which period the Government would have a sure supply of date trees sufficient to last for very many years, besides the advantage of - - giving out lands for cultivation elsewhere and so bringing in extra revenue.

8. The above details will, I hope, convince the Government of the necessity of the proposed scheme which I have already set in motion and, therefore, request you will obtain very early sanction of Government for the entertainment of the staff referred to in my letter adverted to in the reference under reply.

9. If there should be any difficulty for the sanction being

accorded
